

Heat Stress Physiological Monitoring Program

**Hanford Advisory Board
Health, Safety and Environmental
Protection Committee**

Ken Way

Industrial Hygiene
Washington River Protection Solutions

May 19, 2020

Implementation and Findings

**WRPS began
implementation
of a Heat Stress
Physiological
Monitoring (HSPM)
program in Hanford's
Tank Farms in 2014**

Results of HSPM Program

The program resulted in a “best-in-class” Heat Stress Control Program for protecting workers

HSPM Program Recognition

The WRPS HSPM program has been recognized as “best-in-class” on both the national and international level
